

## **Enhancing Personal Injury Case Outcomes with Mobile Functional Capacity Evaluations Objective. Defensible. Convenient.**

As a licensed physical therapist, I am writing to introduce to you a service that can significantly strengthen your personal injury cases while making the process more convenient for your clients. I provide comprehensive, on-site, mobile Functional Capacity Evaluations (FCEs) that objectively measure an individual's physical abilities and limitations following an injury. Unlike traditional evaluations that require clients to travel to a clinic or hospital, my mobile FCE system brings all the necessary professional-grade equipment directly to a location that's most convenient for your client.

### **Key advantages for your firm and your clients include:**

- **Objective, Defensible Evidence:** Each evaluation produces detailed, standardized data that clearly defines what your client *can and cannot do* following an injury. This information carries significant weight in depositions, mediations and trials.
- **Convenience and Efficiency:** By bringing the evaluation to your client, scheduling delays and transportation challenges are eliminated - helping you move cases forward faster.
- **Enhanced Case Value:** The FCE bridges the gap between medical diagnosis and functional impact, strengthening your ability to demonstrate the true extent of disability or loss of earning capacity.
- **Professional Expertise:** With a background in physical therapy and Advanced Training certification through WorkWell Systems (formerly Isernhagen), my assessments are grounded in evidence-based practice, ensuring accuracy, reliability, and strong credibility in both medical and legal settings.
- **Comprehensive Documentation:** Each report includes objective findings, detailed narrative summaries, and clear conclusions on work capacity, return-to-duty potential, and long-term functional limitations - all presented in a format that's easy for legal teams to interpret and use.

Please feel free to contact me if further clarification or expert consultation is needed regarding incorporating a mobile FCE into your firm's case strategy.
