

Mobile Functional Capacity Evaluation (FCE) **Objective. Defensible. Convenient.**

As a licensed physical therapist, I provide Mobile Functional Capacity Evaluations designed specifically to support personal injury cases. Our service brings accurate, court-defensible functional assessments directly to your client's location - saving time, reducing stress, and helping your firm secure stronger outcomes.

What is a Functional Capacity Evaluation?

A Functional Capacity Evaluation (FCE) is a comprehensive, evidence-based assessment that measures an individual's physical abilities, limitations, and endurance following an injury.

It objectively determines how the injury affects their ability to work and perform daily activities - information critical for litigation, settlement, and disability determination.

Why Choose a Mobile FCE?

Our mobile evaluation system eliminates the barriers of traditional clinic-based testing by bringing professional-grade equipment and expertise to your client's preferred location - home, workplace, or neutral site.

Benefits for Attorneys and Clients:

- Objective, Defensible Data: Quantifies the client's functional loss with standardized, measurable results.
- Enhanced Case Value: Supports claims related to disability, work capacity and loss of earning potential.
- Convenience and Accessibility: No travel required - ideal for clients with mobility challenges or limited transportation.
- Foster Case Progress: Quick scheduling and on-site testing help move cases forward efficiently.
- Professional Expertise: Conducted by a physical therapist who has completed more than 300 FCEs with experience in injury rehabilitation and medico-legal documentation.

What's Included in Every FCE Report:

- Comprehensive assessment of strength, flexibility and endurance.
- Detailed documentation of physical limitations and tolerance.
- Narrative summary linking medical findings to real-world function.
- Clear conclusions on work capacity and return-to-duty potential.
- Standardized metrics suitable for court presentation and expert testimony.

Why Law Firms Partner With Us:

- Attorneys appreciate how a mobile FCE bridges the gap between medical diagnosis and real-life impact.
- It provides clear, defensible evidence that helps substantiate claims, improve negotiation outcomes, and demonstrate the true functional consequences of injury.

Please feel free to contact me if further clarification or expert consultation is needed regarding incorporating a mobile FCE into your firm's case strategy.
